RA Smart to launch new LaForte Studio textile printers from Aleph

WRITTEN BY COLIN GILLMAN ON 08 SEPTEMBER 2016.

Tweet 10 Share 4 Like 4 G+ 4 Email 0 share 22

Textile printing specialist supplier **RA Smart** is set to launch the latest digital textile printing innovations from Italian manufacturer Aleph.

The soon to be released LaForte Studio range of systems will be introduced in the 4th quarter of 2016. RA Smart envisage these systems will have great appeal in the UK marketplace with a combination of innovative Italian design and uncompromising engineering taken from the LaForte Industrial range and introduced into a cost effective solution for both dye sublimation and direct to textile printing at 180cm, 220cm and 320cm print widths.

According to RA Smart managing director Magnus Mighall RA Smart has partnered Aleph for nearly 20 years and has a long and successful relationship. "The New LaForte Studio systems will be available towards the end of 2016 at both 180cm and 320cm print width for direct to textiles and dye sublimation," he says. "Both printers offer the same level of manufacturing quality and design as the LaForte Industrial range with an extremely attractive price point which is sure to appeal to a wide range of our customers."

Both systems will appeal to a wide range of sectors including soft signage, apparel, sportswear, home furnishing etc.

 Piezoelectric print heads variable-drop jetting from 4pl to 77pl
 2,656 nozzles - 2 colour

"With a full range of textile ink chemistries to complement the printers as well as finishing solutions for both natural and synthetic fabrics available from RA Smart, the **LaForte range of systems** will certainly have a widespread appeal across the industry sectors. The LaForte printers fit perfectly in the range of solutions RA Smart already offer from all our manufacturing partners so we can offer the best possible solution without compromise at every level of productivity to meet the demands of our customers," he says.

Formed in 1999 in Como, Italy, the heart of Italian Textile Manufacturing, the Aleph Team have unparalleled experience in the world of digital textiles including writing proprietary textile software and manufacture, supply and support of dedicated digital textile solutions.

With 50 years of experience of textile printing and nearly 20 years experience in textile digital printing, RA Smart has the knowledge and expertise to advise and support new and existing customers at every level from new start-up business through to large commercial and industrial printers.
