Press Release  
Lurate Caccivio, December 8, 2016

### **The future is now at Aleph: high performing technology for digital printing**

Since the beginning, Aleph invested time and resources on LaForte project and it was clearly a long journey in the sign of innovation.

Today at Fespa Eurasia, Aleph is presenting the most modern technology in terms of integrated system for printing on paper and textile. Protagonist of this year exhibition is the LaForte@Paper printer which is designed and developed for industrial digital printing on transfer paper.

Above all the unique feature of this wide format inkjet plotter is the high speed it can reach by delivering an high quality finished product: **800 sqm/h**. Larger volumes in lesser time, this is the exceptional attainment that Aleph can guarantee to customers. Other important advantages are: the **automatic further improved heads alignment**, the new **software matrix for the points arrangement** and the **innovative patented transport system** through vacuum belt filter that provide an exceptional performance compared to competitors printers. The LaForte@Paper is equipped with 8/16 print heads and delivers 1200 dpi resolution.

Entering the Aleph booth is like entering a virtual factory. Visitors can easily understand what the LaForte project is: a complete process line is presented along with the LaForte@Paper. A winder, an unwinder and the Dry Forte, a transfer paper dryer that conceal an innovative rapid fabric drying technology equipped with infrared plasma lamps with extraction surface. The

Dry Forte is designed to interface with any inkjet plotter on the market.

Aleph booth at Fespa is also focusing on inks and of course on the after sales service provided by the exclusive distributor for Turkey.

Created in 1999 in the heart of the Italian textile manufacturing excellence, Aleph is now a company with a solid know-how in the construction of printing machine and in the development of supporting software.

From large format textile printers to drying systems, from proprietary software to consumables, Aleph develops and manufactures technologically advanced products for each individual printing process, and offers reliable after-sales technical support services.

Aleph distributes in UK, India and Turkey through reliable partners. For more info, please visit [alephteam.com](http://alephteam.com).
